

REMARKS

Claims 2, 4 to 8, 10 to 15 are presently active in the application.

By the previous amendment, filed on August 13, 2004, Figure 9 has been amended. Specifically, the legend "driving data" has been replaced with "driving signal" in order to eliminate a typographical error. On page 2 of the amendment the support for amended Figure 9 was cited as "page 13, lines 15, 20". However, this is not correct. The support for amendment of Figure 9 is presented on page 16, lines 20-21. Therefore, this amendment corrects an inaccuracy of the amendment filed on August 13, 2004. This supplemental amendment is accompanied with a set of formal drawings including previously corrected Figure 9. The Examiner is respectfully requested to enter this amendment and provide an indication of acceptance of the formal drawings acknowledgment.

In view of the foregoing, it is respectfully requested that the application be reconsidered in a view of the amendment filed on August 13, 2004 and this supplemental amendment, and that claims 2, 4 to 8, 10 to 15 be allowed, and that the application be passed to issue.

Should the Examiner find the application to be other than in condition for allowance, the Examiner is requested to contact the undersigned at the local telephone number listed below to discuss any other changes deemed necessary in a telephonic or personal interview.

A provisional petition is hereby made for any extension of time necessary for the continued pendency during the life of this application. Please charge any fees for such provisional petition and any deficiencies in fees and credit any overpayment of fees to Attorney's Deposit Account No. 50-2041 (Whitham, Curtis & Whitham, P.C.).

Respectfully submitted,
